Bar-E-L Bride 28C is sired by Bar-E-L Natural Law 52Y and is considered by many to be his greatest daughter. 28C headlined the 2022 Open Book Invitational at Brooking Angus Ranch in Canada and became the top-selling female of the event. She sold a \$75,000 flush in the 2023 Your Maternal Source Female Sale and has created quite a stir at Coleman Angus with visitors who saw her. 28C reads with an exquisite phenotype, beautiful udder, massive rib shape, and a beautiful, elegant front-end extension in a very complete, fault-free, high-quality package. It is very seldom that we buy outside genetics unless we feel they can move our program, but 28C fits the mold and style we love here! Coleman Glacier 041 has been a standout since birth. Glacier will improve foot quality, udder quality, fertility, disposition, structure, while also being extremely sound, athletic, and possessing a great herd bull look. We feel he is the bull the industry has been looking for! His daughters here are as good as we have ever had the opportunity to work with. We have 4 flush sisters to Glacier here at the Ranch and everyone is very impressive: they have perfect udders, great feet and are stout with a beautiful look. Every one of these sisters have a great production record, calving interval record, probably as good of set of flush sisters as we have ever had here. We believe it all starts with the mother cow, and Glacier's Pathfinder dam is no exception. 439 is the fourth consecutive generation to make it to the donor pen. She has ratios of BR 5/93, WR 5/107 and YR 5/106. She is also the dam of Mission 1447 and Ace 989, both of which are doing a tremendous job for us. **These are IVF embryos (Trans Ova), and we are selling three embryos in this mating and guaranteeing one pregnancy.** These embryos have been sexed for females, 90-95% accurate. These embryos are exportable to Canada.

Coleman Donna 504 has been a visitor favorite since she was a calf. She has done a tremendous job on her calves, which have been some of the favorites in our bull and female sales. She records a progeny production record of BR 4/89, WR 4/110 and YR 4/111. 504 has generated \$600,000 on 50 head to average \$12,000. Her sons topped our 2021 Bull Sale, with many going to registered breeders across the United States. Coleman Glacier 041 has been a standout since birth. Glacier will improve foot quality, udder quality, fertility, disposition, structure, while also being extremely sound, athletic, and possessing a great herd bull look. We feel he is the bull the industry has been looking for! His daughters here are as good as we have ever had the opportunity to work with. Coleman Donna 504 has been a visitor favorite since she was a calf. She has done a tremendous job on her calves, which have been some of the favorites in our bull and female sales. She records a progeny production record of BR 4/89, WR 4/110 and YR 4/111. 504 has generated \$600,000 on 50 head to average \$12,000. Her sons topped our 2021 Bull Sale, with many going to registered breeders across the United States. If you haven't used Easy Decision in your breeding program, I strongly consider that you think about it. Coleman Easy Decision 1539 was the second top-selling bull of the 2023 Coleman Angus Bull Sale where he sold for \$135,000 to Southern Cattle Co. of Mariana, FL, and Select Sires AI Stud. Easy Decision was named properly because he is five generations of calving ease genetics from five great cows within the Coleman program. His predictability is second to none for proven calving ease, high maternal, and performance genetics. Coleman Donna 7386, his dam, has a wonderful production record of BR 4/90, WR 4/113, YR 2/113 and four calves in a 364-day calving interval. His grandmother has a progeny production record of BR 6/93, WR 6/108, YR 5/107 and a 367-calving interval on 6 calves. Combine these two generations with the third, fourth, and fifth generations of Coleman Donna 714, Coleman Donna 386, and the Matriarch Donna J311! **These are IVF embryos (Trans Ova), and we are selling three embryos in this mating and guaranteeing one pregnancy.** The buyer has the option to take 6 embryos out of this mating and we will guarantee 2 pregnancies. These embryos have been sexed for females, 90-95% accurate.

Coleman Donna 0153, a Pathfinder female, she has a progeny production record of BR 3/89, WR 3/109 and YR 2/106, with a calving interval of 365 days on her first 3 calves. 0153's first calf was Coleman Below Zero, who was the \$150,000 top-selling bull in our 2023 Bull sale. 0153 was the lead-off female in our 2024 "Your Maternal Source Female Sale" where she sold for \$185,000 for ½ interest to Ingram Angus of Tennessee. 0153 is a great producer and has another great calf on her side this spring by Palermo. We very seldom sell embryos out of "0153", so pay attention here. One of the greatest breeding achievements we have ever made is another son of "0153" Coleman Avalanche 487, stay tuned for information on him coming soon. This mating here I feel could be the best one we have ever made on "0153". If you haven't used Easy Decision in your breeding program, I strongly consider that you think about it. Coleman Easy Decision 1539 was the second top-selling bull of the 2023 Coleman Angus Bull Sale where he sold for \$135,000 to Southern Cattle Co. of Mariana, FL, and Select Sires All Stud. Easy Decision was named properly because he is five generations of calving ease genetics from five great cows within the Coleman program. His predictability is second to none for proven calving ease, high maternal, and performance genetics. Coleman Donna 7386, his dam, has a wonderful production record of BR 4/90, WR 4/113, YR 2/113 and four calves in a 364-day calving interval. Another daughter of 034 was the \$31,000 second top-selling heifer of the 2023 spring production sale at Ingram Angus. Demand for the now-deceased Rock is at an all-time high across the world right now. The cattleman's kind is a perfect way to describe Coleman Rock 7200. Rock would currently be one of the heaviest used sires here at Coleman Angus. He sires cattle with extra three-dimensional shape with added performance in the right size package. His offspring have tons of center body and explosive muscle shape in a sound-structured

Coleman Rock 7200
Sire of Embryos

package. Rock is low birthweight, high growth, and ranks in the Top 1% for \$M. **These are IVF embryos (Trans Ova), and we are selling three embryos in this mating and guaranteeing one pregnancy.** The buyer has the option to take 6 embryos out of this mating and we will guarantee 2 pregnancies. Coleman Donna 928 is an exceptional donor female that recently sold in our 2024 Your Maternal Source Female Sale for \$200,000 for one-half-interest for a \$400,000 valuation to Southall Angus of Tennessee. 928 is a sixth-generation Coleman Donna and has a progeny production record of BR 3/93 and WR 3/108. She is a beautifully designed female with added body, tremendous three-dimensional shape, and muscle expression with exceptional \$M Values. Coleman Donna 787, her dam, is a favorite around the ranch and one of the top young income producers in the program, generating \$527,000 on 13 head for an average of \$40,538 in past Coleman Angus sales. Coleman Glacier 041 has been a standout since birth. Glacier will improve foot quality, udder quality, fertility, disposition, structure, while also being extremely sound, athletic, and possessing a great herd bull look. We feel he is the bull the industry has been looking for! His daughters here are as good as we have ever had the opportunity to work with. We have 4 flush sisters to Glacier here at the Ranch and everyone is very impressive: they have perfect udders, great feet and are stout with a beautiful look. Every one of these sisters have a great production record, calving interval record, probably as good of set of flush sisters as we have ever had here. We believe it all starts with the mother cow, and Glacier's Pathfinder dam is no

Coleman Glacier 041
Sire of Embryos

exception. 439 is the fourth consecutive generation to make it to the donor pen. She has ratios of BR 5/93, WR 5/107 and YR 5/106. She is also the dam of Mission 1447 and Ace 989, both of which are doing a tremendous job for us. **These are IVF embryos (Trans Ova), and we are selling three embryos in this mating and guaranteeing one pregnancy.** The buyer has the option to take 6 embryos out of this mating and we will guarantee 2 pregnancies. These embryos have been sexed for females, 90-95% accurate. These embryos are exportable to Canada.

She is a female that gets better as she ages, with a massive amount of rib shape and stoutness for a two-year-old nursing her first calf. Demand for South America is at an all-time high! South America has created quite a stir: he was the \$180,000 top-selling bull, the people's choice and pick of the flush at the 2021 Cattleman's Congress. We rarely go and purchase bulls to bring into our program, however, he fits our visions, beliefs, and breeding philosophies. South America is a son of a past Palermo Grand Champion Bull, Don Aparicio Serrucho 57 Maxi, one of the great female sire makers in South America. His mother was selected

Hummel South America
Sire of Embryos

as the heifer calf champion at the 2018 Palermo Show, one of the world's most respected and admired shows. He is an individual with outcross genetics, tremendous shape, and extra center belly depth in a dense, eye-appealing package. Visitors here to the ranch have loved him, and he is having a major impact on our program. **These are IVF embryos (Trans Ova), and we are selling three embryos in this mating and guaranteeing one pregnancy.** These embryos are exportable to Canada.

Coleman Donna 9220 is the definition of a model Angus female. She is a daughter of SAV Resource 1441 back to the now deceased Coleman Donna 4203. She was our Lot 1 female in the 2023 Your Maternal Source Female Sale, where she sold one-half-interest for \$45,000 for a \$90,000 valuation. She ranks among current dams as the 14th highest daughter of Resource for \$M for non-parent females in the breed. Coleman Banker, a maternal brother, was the \$75,000 feature in the same sale and two other maternal sisters sold for \$22,000 and \$22,500. Coleman Rock 7200 was the \$240,000 record selling bull in our 2022 Your Maternal Source Female Sale to Ingram Angus and Sandford Cattle. Demand for the now-deceased Rock is at an all-time high across the world right now. The cattleman's kind is a perfect way to describe Coleman Rock 7200. Rock would currently be one of the heaviest used sires here at Coleman Angus. He sires cattle with extra three-dimensional shape with added performance in the right size package. His offspring have tons of center body and explosive muscle shape in a sound-structured package. Rock is low birthweight, high growth, and ranks in the Top 1% for \$M. **These are IVF embryos (Trans Ova), and we are selling three embryos in this mating and guaranteeing one pregnancy.** These embryos have been sexed for females, 90-95% accurate. These embryos are exportable to Canada.

Coleman Donna 9220 is the definition of a model Angus female. She is a daughter of SAV Resource 1441 back to the now deceased Coleman Donna 4203. She was our Lot 1 female in the 2023 Your Maternal Source Female Sale, where she sold one-half-interest for \$45,000 for a \$90,000 valuation. She ranks among current dams as the 14th highest daughter of Resource for \$M for non-parent females in the breed. Coleman Banker, a maternal brother, was the \$75,000 feature in the same sale and two other maternal sisters sold for \$22,000 and \$22,500. Coleman Platinum 2622 sold for \$170,000 to TK Angus and Arrowsmith Red Angus, both in Nebraska in October. Platinum is one of the greatest breeding accomplishments in the history of our program and has been a standout from day one. Platinum presents tremendous depth of body with loads of muscle and masculinity in an extremely sound-structured, herd bull package. Platinum's Pathfinder dam is having as much influence on our program as any cow has had. Platinum is a changer, and we are extremely excited to be getting calves out of him. **These are IVF embryos (Trans Ova), and we are selling three embryos in this mating and guaranteeing one pregnancy.** The buyer has the option to take 6 embryos out of this mating and we will guarantee 2 pregnancies. These embryos are exportable to Canada.

“1430” is one of the most beautiful 2-year-olds we have ever had here on the ranch. Since she was a calf, she has been a standout, and one that every visitor here finds. We are excited to be working with Lindskov LT Ranch in SD on the future of “1430”. 1430 was our top selling 2-year-old female in our recent “Your Maternal Source” Female Sale, where ½ interest in her sold for \$155,000 for a \$310,000 valuation. This is the first time we have ever sold embryos out of her, and do not plan to sell many, so get in on the ground floor. 1430 just weaned her first calf with a NR of 102. She will take one of the best photos we have ever taken here after her next calf, this is the kind that will move any progressive program to the next level. “1430” has a tremendous Platinum calf on her this spring, visitors here have loved her. Coleman Platinum 2622 sold for \$170,000 to TK Angus and Arrowsmith Red Angus, both in Nebraska in October. Platinum is one of the greatest breeding accomplishments in the history of our program and has been a standout from day one. Platinum presents

Coleman Donna 769 is one of our favorite females on the ranch. She was a feature in our 2022 Your Maternal Source Female Sale, selling to Ingram Angus in Tennessee. She has a progeny production record of BR 4/104, WR 4/108 and YR 3/107. 769 is a flush sister to Coleman Rock 7200 and is a highly maternal, efficient, beautifully-uddered female. Coleman Glacier 041 has been a standout since birth. Glacier will improve foot quality, udder quality, fertility, disposition, structure, while also being extremely sound, athletic, and possessing a great herd bull look. We feel he is the bull the industry has been looking for! His daughters here are as good as we have ever had the opportunity to work with. We have 4 flush sisters to Glacier here at the Ranch and everyone is very impressive: they have perfect udders, great feet and are stout with a beautiful look. Every one of these sisters have a great production record, calving interval record, probably as good of set of flush sisters as we have ever had here. We believe it all starts with the mother cow, and Glacier's Pathfinder

Coleman Glacier 041
Sire of Embryos

dam is no exception. 439 is the fourth consecutive generation to make it to the donor pen. She has ratios of BR 5/93, WR 5/107 and YR 5/106. She is also the dam of Mission 1447 and Ace 989, both of which are doing a tremendous job for us. **These are IVF embryos (Trans Ova), and we are selling three embryos in this mating and guaranteeing one pregnancy.** The buyer has the option to take 6 embryos out of this mating and we will guarantee 2 pregnancies. Coleman Chloe 975 has been a visitor favorite since she was a calf. She has a progeny production record of BR 3/98, WR 3/107 and YR 2/111. She is a flush sister to Coleman Triumph 9145, the top-selling bull of the 2020 Your Maternal Source Female Sale, where he sold for \$225,000 for one-half interest for a \$450,000 valuation. 975 was the top-selling female in the 2019 Your Maternal Source Female Sale, selling for \$60,000 for one-half interest for a \$120,000 valuation to Jocko Valley in Montana. 975's offspring have generated as much talk and excitement as any at the ranch. Her daughters include the top-selling open heifer of the 2023 Your Maternal Source Female Sale, Coleman Chloe 2527, selling for \$160,000 to Lindskov's LT Ranch of South Dakota. Other daughters include the \$40,000 Coleman Chloe 268 and the \$40,000 Coleman Chloe 274, which sold to Sullivan Farms of Iowa. 975's ET calves and natural calves continually blow us away. She is truly as consistent as any cow we have ever owned. If you haven't used Easy Decision in your breeding program, I strongly consider that you think about it. Coleman Easy Decision 1539 was the second top-selling bull of the 2023 Coleman Angus Bull Sale where he sold for \$135,000 to Southern Cattle Co. of Mariana, FL, and Select Sires AI Stud. Easy Decision was named properly because he is five generations of calving ease genetics from five great cows within the Coleman program. His predictability is second to none for proven calving ease, high maternal, and performance genetics. Coleman Donna 7386, his dam, has a wonderful production record of BR 4/90, WR 4/113, YR 2/113 and four calves in a 364-day calving interval. His grandmother has a progeny production record of BR 6/93, WR 6/108, YR 5/107 and a 367-calving interval on 6 calves. Combine these two generations with the third, fourth, and fifth generations of Coleman Donna 714, Coleman Donna 386, and the Matriarch Donna J311! **These are IVF embryos (Trans Ova), and we are selling three embryos in this mating and guaranteeing one pregnancy.** These embryos have been sexed for females, 90-95% accurate.

Donna 4203 was a tremendous female here for us, with a progeny production record of BR 4/91, WR 4/105 and YR 4/106. "4203" is the Dam of Coleman Banker 9215, she was a past feature Lot 1, selling ½ interest to Fish Creek Ranch of MT. "4203" has had daughters here as Lot 1 also, most recently Donna 9220. She was the first of the Donna 714 X Connealy Thunder females to leave their mark here. "4203" is deceased and we have a very limited number of embryos left out of her, so if you have been wanting some here's your opportunity. Hummel Argentine is a flush brother to both South America and Palermo. You can see the effect that both South America and Palermo have had on our program. He is currently working for Griswold Cattle in OK. This will be an excellent mating, with a tremendous amount of look, great hind leg, and should make excellent cattle. **These are IVF embryos (Trans Ova), and we are selling three embryos in this mating and guaranteeing one pregnancy.** The buyer has the option to take 6 embryos out of this mating and we will guarantee 2 pregnancies. These embryos have been sexed for females, 90-95% accurate.

Coleman Donna 5247 is the model Angus cow. She is a Pathfinder dam that is as good as it gets and is a very consistent producer. She has tremendous three-dimensional shape, volume, muscle, and mass. 5247 records a progeny production record of BR 5/95, WR 5/109 and YR 4/111. She is backed by an incredible line of cow power; Her dam was a Pathfinder, her grand-dam is Coleman Donna 386, and her great grand-dam is KMK Donna J311, the matriarch of our Donna cow family. This is a female that consistently produces sale-topping offspring! Coleman Glacier 041 has been a standout since birth. Glacier will improve foot quality, udder quality, fertility, disposition, structure, while also being extremely sound, athletic, and possessing a great herd bull look. We feel he is the bull the industry has been looking for! His daughters here are as good as we have ever had the opportunity to work with. We have 4 flush sisters to Glacier here at the Ranch and everyone is very impressive: they have perfect udders, great feet and are stout with a beautiful look. Every one of these sisters have a great production record, calving interval record, probably as good of set of flush sisters as we have ever had

Coleman Glacier 041
Sire of Embryos

here. We believe it all starts with the mother cow, and Glacier's Pathfinder dam is no exception. 439 is the fourth consecutive generation to make it to the donor pen. She has ratios of BR 5/93, WR 5/107 and YR 5/106. She is also the dam of Mission 1447 and Ace 989, both of which are doing a tremendous job for us. **These are IVF embryos (Trans Ova), and we are selling three embryos in this mating and guaranteeing one pregnancy.** The buyer has the option to take six embryos out of this mating and we will guarantee 2 pregnancies. These embryos are exportable to Canada.

This is a female that consistently produces sale-topping offspring! Coleman Galactic 1164 was the \$150,000 top selling bull in our 2022 Bull Sale going to Voss Angus in IA. Galactic's first daughters have calved here this spring, and they are excellent, beautiful wedgy females, perfect udders. We are extremely happy with them. Galactic himself is a tremendous individual with exceptional breed character. He is smooth patterned with massive rib design in a high-quality super sound-structured package. His dam is a full sister to Coleman Navigator, going back to our

Coleman Galactic 1164

Mill Brae Iden Georgina 4086 sold for \$210,000 for one-half interest for a \$420,000 valuation in the 2023 Your Maternal Source Female Sale, making her the top-selling female of the event. She is the Dam of J Trademark 1037, a featured herd sire at the Coleman Angus and Conley Cattle programs. Trademark has been one of the most sought-after young herd bulls, with semen selling to many of the leading registered herds across the United States. 4086 has a progeny record of BR 7/99, WR 7/103 and YR 5/103. When you combine Calving Ease, Growth, Marbling, and \$ Values, she is the #1 cow in AHIR her age or older. 4086 did this the old-fashioned way, in the pasture and through her progeny. Coleman Rock 7200 was the \$240,000 record selling bull in our 2022 Your Maternal Source Female Sale to Ingram Angus and Sandford Cattle. Demand for the now-deceased Rock is at an all-time high across the world right now. The cattleman's kind is a perfect way to describe Coleman Rock 7200. Rock would currently be one of the heaviest used sires

Coleman Rock 7200
Sire of Embryos

here at Coleman Angus. He sires cattle with extra three-dimensional shape with added performance in the right size package. His offspring have tons of center body and explosive muscle shape in a sound-structured package. Rock is low birthweight, high growth, and ranks in the Top 1% for \$M. **These are IVF embryos (Trans Ova), and we are selling three embryos in this mating and guaranteeing one pregnancy.** These embryos have been sexed for females, 90-95% accurate. These embryos are exportable to Canada.

When you combine Calving Ease, Growth, Marbling, and \$ Values, she is the #1 cow in AHIR her age or older. 4086 did this the old-fashioned way, in the pasture and through her progeny. 4086 has a natural calf on her now by Platinum, and he is excellent. Coleman Platinum 2622 sold for \$170,000 to TK Angus and Arrowsmith Red Angus, both in Nebraska in October. Platinum is one of the greatest breeding accomplishments in the history of our program and has been a standout from day one. Platinum presents tremendous depth of body

Coleman Platinum 2622
Sire of Embryos

with loads of muscle and masculinity in an extremely sound-structured, herd bull package. Platinum's Pathfinder dam is having as much influence on our program as any cow has had. Platinum is a changer, and we are extremely excited to be getting calves out of him. **These are IVF embryos (Trans Ova), and we are selling three embryos in this mating and guaranteeing one pregnancy.** The buyer has the option to take 6 embryos out of this mating and we will guarantee 2 pregnancies. Online EMBRYO Auction Closes March 18th | 7 PM (MST)

Lawsons Chloe C815 is a female that needs no introduction, as she has produced more high-valued cattle here in the past few years than any female we have ever owned. Coleman Chloe 9275, a maternal sister, is the record-selling female in the history of our program, selling one-half interest for \$375,000 for a \$750,000 valuation. 9275 is the dam of the record-selling flush from our 2022 Your Maternal Source Female Sale, selling for \$80,000. Another maternal sister, Coleman Chloe 034, was the top-selling bred heifer of the 2021 Your Maternal Source Female Sale, where she sold one-half interest for \$150,000 for a \$300,000 valuation. Coleman Triumph 9145, a maternal brother to these embryos, was the top-selling lot of the 2020 Your Maternal Source Female Sale, selling one-half interest for \$225,000 for a \$450,000 valuation. There is an extensive list of maternal siblings to these embryos that have sold exceptionally well here. "707" will sire cattle with a tremendous amount of performance, extremely good feet, very sound, and extreme amount of muscle and shape. "707" is the sire of Coleman Foundation 972, and Coleman Knight 209, two bulls that have had a tremendous amount of impact in the success of our program, along with their flush sisters. We feel that "707" is one of the great "old" bulls that can move any program in the right direction. Semen is very limited on him, last we saw sell in a public auction commanded over \$15,000/amp. We will have very few of these embryos that we will ever sell, so if you are wanting to get some direct progeny out of "707" here is your chance. All these matings are to "707" were carefully considered as we have very little semen left on him, we did not want to make any mistakes if possible. **These are IVF embryos (Trans Ova), we are selling three embryos in this mating and guaranteeing one pregnancy.** The buyer has the option to take 6 embryos out of this mating and we will guarantee 2 pregnancies.

Coleman Miss Wix 0204 is a Pathfinder female that has proved herself in the pasture. She had a calving interval of 357 days on her first eight calves before we made the decision to pull her out of production to flush her. She records a progeny production record of BR/99, WR 10/108 and YR 10/107. 0204 is an exceptional female that never misses, with an excellent udder, disposition, and feet. She is fourteen years of age and continually blows us away! "707" will sire cattle with a tremendous amount of performance, extremely good feet, very sound, and extreme amount of muscle and shape. "707" is the sire of Coleman Foundation 972, and Coleman Knight 209, two bulls that have had a tremendous amount of impact in the success of our program, along with their flush sisters. Coleman Eriskay 291 has been an incredible female for us. She is the dam of Coleman Navigator 614, a proven bull that has produced both a very good set of daughters for us and sons that have topped our sales. Navigator throws as much true muscle as any bull we've used. Navigator semen was sold out for a period but is now available! Before being used as a donor, 291 had a calving interval of 367 days on 6 calves. She currently has a progeny production record of BR 8/88, WR 8/105 and YR 8/103. She has a perfect udder and is long-sided, deep-ribbed, and very complete. It is not very often that you have a female that has a very low birthweight like 291 while still throwing extreme performance! Pay attention here, we have never sold embryos out of Rito 707 before. "707" is a bull we first used here in our program back in 2008. "707" will sire cattle with a tremendous amount of performance, extremely good feet, very sound, and extreme amount of muscle and shape. "707" is the sire of Coleman Foundation 972, and Coleman Knight 209, two bulls that have had a tremendous amount of impact in the success of our program, along with their flush sisters. Coleman Donna 7100 is a Pathfinder female with production records of BR 4/97, WR 4/110 and YR 4/108. She sold to Shady Brook Angus of Tennessee for a \$70,000 valuation and has certainly made her mark on our program. 7100 is the dam of Coleman Logo 947 who sold in the 2020 Coleman Angus Bull Sale to Little Goose Ranch in Wyoming. She also produced the top-selling \$18,000 heifer calf of the 2023 Shady Brook Spring Sale going to Bucksnot Ranch of Tennessee. Her full sisters include the \$120,000 Coleman Donna 504, the \$120,000 Coleman Donna 7231 and Coleman Donna 7232. She is an extremely long-bodied female with tons of power and an excellent udder, and I feel that she is one of the best young females on the ranch. If you haven't used Easy Decision in your breeding program, I strongly consider that you think about it. Coleman Easy Decision 1539 was the second top-selling bull of the 2023 Coleman Angus Bull Sale where he sold for \$135,000 to Southern Cattle Co. of Mariana, FL, and Select Sires AI Stud. Easy Decision was named properly because he is five generations of calving ease genetics from five great cows within the Coleman program. His predictability is second to none for proven calving ease, high maternal, and performance genetics. Coleman Donna 7386, his dam, has a wonderful production record of BR 4/90, WR 4/113, YR 2/113 and four calves in a 364-day calving

Coleman Easy Decision 1539
Sire of Embryos

interval. His grandmother has a progeny production record of BR 6/93, WR 6/108, YR 5/107 and a 367-calving interval on 6 calves. Combine these two generations with the third, fourth, and fifth generations of Coleman Donna 714, Coleman Donna 386, and the Matriarch Donna J311! **These are IVF embryos (Trans Ova), and we are selling three embryos in this mating and guaranteeing one pregnancy.** The buyer has the option to take 6 embryos out of this mating and we will guarantee 2 pregnancies. Online EMBRYO Auction Closes March 18th | 7 PM (MST)

Coleman Everelda Entense 4327 is a beautiful Pathfinder female with a progeny production record of BR 6/97, WR 6/116 and YR 6/114. She has a calving interval of 366 days on her first 6 calves and has as much power as any female we have owned. She is the dam of the \$40,000 Coleman Alamo 0352, a bull that has seen demand worldwide for his semen. A daughter of 4327's, Coleman Everelda Entense 6325, sold for \$22,000 to Hideaway Cattle in Montana in the 2021 Your Maternal Source Female Sale. Coleman Glacier 041 has been a standout since birth. Glacier will improve foot quality, udder quality, fertility, disposition, structure, while also being extremely sound, athletic, and possessing a great herd bull look. We feel he is the bull the industry has been looking for! His daughters here are as good as we have ever had the opportunity to work with. We have 4 flush sisters to Glacier here at the Ranch and everyone is very impressive: they have perfect udders, great feet and are stout with a beautiful look. Every one of these sisters have a great production record, calving interval record, probably as good of set of flush sisters as we have ever had here. We believe it all starts with the mother cow, and Glacier's

Coleman Glacier 041
Sire of Embryos

Pathfinder dam is no exception. 439 is the fourth consecutive generation to make it to the donor pen. She has ratios of BR 5/93, WR 5/107 and YR 5/106. She is also the dam of Mission 1447 and Ace 989, both of which are doing a tremendous job for us. **These are IVF embryos (Trans Ova), and we are selling three embryos in this mating and guaranteeing one pregnancy.** The buyer has the option to take 6 embryos out of this mating and we will guarantee 2 pregnancies. These embryos have been sexed for females, 90-95% accurate. These embryos are exportable to Canada.

A daughter of 4327's, Coleman Everelda Entense 6325, sold for \$22,000 to Hideaway Cattle in Montana in the 2021 Your Maternal Source Female Sale. Coleman Rock 7200 was the \$240,000 record selling bull in our 2022 Your Maternal Source Female Sale to Ingram Angus and Sandford Cattle. Demand for the now-deceased Rock is at an all-time high across the world right now. The cattleman's kind is a perfect way to describe Coleman Rock 7200. Rock would currently be one of the heaviest used sires here at Coleman Angus. He sires cattle with extra three-dimensional shape with added performance in the right size package. His offspring have tons of center body and explosive muscle shape in a sound-

Coleman Rock 7200

structured package. Rock is low birthweight, high growth, and ranks in the Top 1% for \$M. **These are IVF embryos (Trans Ova), and we are selling three embryos in this mating and guaranteeing one pregnancy.** The buyer has the option to take 6 embryos out of this mating and we will guarantee 2 pregnancies. These embryos are exportable to Canada.

Coleman Donna 8231 is a Pathfinder female. She records a progeny production record of BR 4/99, WR 4/105 and YR 3/107. 8231 has an extremely good Palermo bull calf on her this spring. 8231 is a valuable breeding piece here and was a feature in our 2022 Maternal Source Female Sale, where one-half interest in her sold to H2O Cattle Company. 8231 has is as stout and massive as we have made one, extremely productive, and an exceptionally good producer. Her mother, Donna 0308 is one of our all-time favorite females in the history of our program, she is currently 15 years of age, and still excellent feet and udder under her. Coleman Glacier 041 has been a standout since birth. Glacier will improve foot quality, udder quality, fertility, disposition, structure, while also being extremely sound, athletic, and possessing a great herd bull look. We feel he is the bull the industry has been looking for! His daughters here are as good as we have ever had the opportunity to work with. Coleman Donna 8284 is a Pathfinder female. She records a progeny production record of BR 4/95, WR 4/106 and YR 4/106. 8284 is currently nursing an excellent calf by Platinum. 8284 is one of our best daughters of Bravo, she has an extreme amount of rib shape, with a big, long square hip. 8284 is as close to our foundation and original Donna J311 as any female we own. She has done an excellent job here, and we are excited about her future. This mating is time-less, resulting calves will have tremendous built in longevity, udder quality, foot quality, and maternal. The Sire of these embryos is the Maternal Legend, Leachman Right Time. We have had some extremely good Right Time females here over the years and would expect this mating as good or better than any we have made. Whoever buys these embryos, please keep me in the loop on the females and how they do down the road. **These are IVF embryos (Trans Ova), and we are selling three embryos in this mating and guaranteeing one pregnancy.** These embryos have been sexed for females, 90-95% accurate. These embryos are exportable to Canada.
