Office 406-644-2697

Mailing: PO Box 200, Charlo, MT 59824

office@colemanangus.com

WWW.COLEMANANGUS.COM

Dear Friends,

We hope that you can join us for our November 3rd online embryo sale hosted by Angus Live. We feel that we have an excellent lineup to offer on Tuesday evening by some of our most prominent as well as favorite donor females and some of the most talked about and proven bulls in our breed today.

Our goal is to offer genetics that you can take into your own programs and find success with. If you have any questions at all, please reach out to any one of us at the ranch and we would welcome the opportunity to discuss the sale offering further with you.

If you have not bid through Angus Live before and need assistance, please call our tech at 469-224-7925.

Thank you very much for your interest!

Sincerely,

Orrin Ingram | Jeremy & Jenny Haag Family | Carl & Kelsey Farrand

Jeremy 406.833.0117 | Carl Farrand 406.565.1790

WWW.COLEMANANGUS.COM

YOU WILL NEED TO CREATE A NEW ACCOUNT, IF YOU HAVE NOT ALREADY, IN ORDER TO BID IN ANGUS LIVE AUCTIONS.

1. Go to <https://anguslive.com>
2. In the upper right corner, click the black "Sign In" box
3. A "Sign In" box will pop up. Click "Sign Up" in green text after the "Need to create an account?"
4. Just follow the prompts! Once you have completed the requested information, an automated verification email from us will then be sent to the email that you signed up with. Click on the "Confirm Email" link highlighted in the email from us to finalize your registration.
5. You are now able to bid in any auction and access your bidder portal (Buyers link in the heading) when you win.

Any issues with signing up or signing in on AngusLive.com please email sales@anguslive.com.

Our bidder portal is a quick-access hub to your auction wins and invoices. We'll store the record for you of lots you've won and invoices against the account you bid with.

RARE OPPORTUNITY. Coleman Donna 0308 is one of the most influential Donna Pathfinder dams in the Coleman Angus program. She is 16 years of age and is the definition of an ideal Angus cow with perfect feet, a perfect udder, and breeds AI the first time each year. She is the No. 2 cow in the breed for \$M that is 15 years of age or older and a Pathfinder dam. She is a direct daughter of OCC Juneau 807J back to Coleman Donna 732 and has a production record of BR 7/91, WR 7/108, YR 6/105 and 40 daughters in production with an average nursing ratio of 103. This outstanding female is a full sister to Coleman Donna 0298 and 0296 and a full sister-in-blood to the \$480,000 record-selling Coleman Rock 7200 along with the No. 1 \$M cow in the breed that is a Pathfinder and 15 years of age or older, Coleman Donna 040. Other full sisters include the \$68,000 valued Coleman Donna 769, the \$60,000 Coleman Donna 7201, and that is to name a few. This female has generated \$695,500 on 36 head and averaged \$19,320 in past Coleman Angus events and those highlights include the \$150,000 one-half interest for a \$300,000 valuation Coleman Donna 8216; the \$55,000 valued Coleman Donna 8231, who is a featured member of the H20 Cattle and Carrico Angus programs in Indiana; the \$27,500 Coleman Donna 0316; the \$25,000 Coleman Donna 9282; the \$26,000 Coleman Donna 8265; and the \$23,000 Coleman Donna 8298 who went on to produce the \$100,000 valued top-selling heifer calf of a past Decades of Excellence Sale. The demand for South America is at an all-time high! South America has created quite a stir: he was the \$180,000 top-selling bull as well as the people's choice and pick of the flush at the 2021 Cattlemen's Congress. We rarely go and purchase bulls to bring into our program, however, he fits our visions, beliefs, and breeding philosophies. South America is a son of a past Palermo Grand Champion Bull, Don Aparicio Serrucho 57 Maxi, one of the great female sire makers in South America. His mother was selected as the Heifer Calf Champion at the 2018 Palermo Show, one of the world's most respected and admired shows. He is an individual with outcross genetics, tremendous shape, and extra center belly depth in a dense, eye-appealing package. Visitors here to the ranch have loved him, and he is having a major impact on our program. Exportable to Canada and sells with no guarantee.

Bar-E-L Bride 28C is sired by Bar-E-L Natural Law 52Y and is considered by many to be his greatest daughter. 28C headlined the 2022 Open Book Invitational at Brooking Angus Ranch in Canada and became the top-selling female of the event. She sold a \$75,000 flush in the 2023 Your Maternal Source Female Sale and has created quite a stir at Coleman Angus with visitors who saw her. 28C reads with an exquisite phenotype, beautiful udder, massive rib shape, and a beautiful, elegant front-end extension in a very complete, fault-free, high-quality package. It is very seldom that we buy outside genetics unless we feel they can move our program, but 28C fits the mold and style we love here! She has a progeny production record of WR 1@112 and YR 1@109. Coleman Avalanche 487 has been a personal favorite from his calf crop with the potential to be a major breeding force. Avalanche has created quite a stir selling for \$250,000 one-half interest to Montana Ranch and Canadian Sires for a valuation of \$500,000 in our 2025 "Your Maternal Source Sale." Semen on Avalanche has been in very high demand and has sold very well. Avalanche is a performance and maternal trendsetter with tremendous length, added style, and herd bull presence as well as phenomenal depth of body, spring of rib, and stands on excellent feet. We are starting to get our first calves out of Avalanche and they are exceptional, very exciting times! Avalanche had a scrotal of 39 as a yearling bull and froze extremely high-quality semen right out of the gate. We have used Avalanche very heavily this spring, ET, AI, and also naturally. If you have not seen him in person, we would encourage you to come check him out. Avalanche is a maternal brother to the great Below Zero bull that has been used around the globe. Avalanche has been a visitor favorite here and has created a world-wide stir. These embryos have been sexed for females, 90-95% accurate. These embryos are exportable to Canada. These embryos sell with no guarantee.

Coleman Donna 0153 is a Pathfinder female who has a calving interval of 364 days on her first four calves and a progeny production record of BR 4/87, WR 4/108, and YR 3/105. She has established herself as one of the great herd sire-producing females in Coleman Angus history and is the dam of the \$150,000 one-half interest Below Zero 2106, a featured member of the GENEX Beef AI Stud along with Marshall & Fenner Farms of MO and Janssen Angus of IA. 0153 Is also the dam of the \$250,000 one-half interest Coleman Avalanche 487, who sold to Montana Angus Ranch in MT and Canadian Sires in Canada. 0153 Was the lead off Lot 1 female of our 2024 Maternal Source Sale where one-half interest in her sold for \$185,000 to Ingram Angus in TN. Very seldom do we sell embryos out of 0153, so pay attention here. Palermo is an outcross sire who has caught the attention of cattlemen around the world. He sold for \$175,000 one-third interest in our 2024 Spring Bull Sale for a valuation of \$525,000. He has been a visitor favorite here the past couple of years, with many telling us, "He's as good of a bull as we've seen in a long time." He truly is as impressive of a bull as you will find with Angus breed character, tremendous depth of body, perfect feet and structure with a huge, wide hip and muscle expression. Palermo sired two of the best bulls we have ever made here, Program and Authentic. His daughters may be the best part of him; they are as impressive of a set as we have ever made here out of one sire. These embryos sell with no guarantee.

Coleman Donna 023 is a Pathfinder female who has a calving interval of 363 days on her first four calves and a progeny production record of BR 4/100, WR 4/111, and YR 4/108. "023" is bred back AI for her fifth calf next spring. Donna 023 is a flush sister to Coleman Glacier 041, the top-selling bull of the 2022 Spring Bull Sale. She is also a flush sister to Coleman Donna 046, who sold for \$120,000 one-half interest to Ingram Angus in Tennessee. When Jeremy and I were trying to pick out our two favorite sisters to Glacier, it came down to these two females: 023 and 046. Jeremy's favorite was 023 and mine was 046, so we flipped a coin to see which female to put in the sale, and 046 won! Coleman Donna 023 is a stout, deep-bodied female with a beautiful udder. She has done a tremendous job on her natural calves, and we are excited to see what she does in the future! Maternal Balance has created as much interest as any bull we have ever produced. He is as complete and fault-free as any bull you will find. He is big topped and massively hipped with added body in a perfectly structured skeleton and stands on a perfect foot. We are very excited to get our first set of calves out of him. His Pathfinder dam is Coleman Chloe 9275, who is quickly making her mark as one of the best cows to ever walk here on the ranch and has a progeny production record of BR 4/95, WR 4/116, and YR 3/122; she is also the dam of Coleman Platinum, Coleman Security, Coleman Arrowhead, Coleman Concrete, Coleman Bond, Coleman Survivor, Coleman Pablo, Coleman Ore, Coleman Flagstone, Coleman General, Coleman Mahomes, Coleman Kelce, and Granite. Chloe 9275 is having a major impact not only in our herd, but also across the whole breed, and currently has 14 sons working in major registered operations. These embryos have been sexed for females, 90-95% accurate. These embryos are exportable to Canada. These embryos sell with no guarantee.

Coleman Donna 0177 is a Pathfinder female who has a calving interval of 366 days on her first four calves and a progeny production record of BR 4/91, WR 4/112, and YR 4/108. 0177 has bred first straw AI every year of her life and has an excellent calf on her again this spring. This is the first time we have ever sold embryos out of her and will not be selling many as some of our very favorite embryo calves this spring are out of her. One of my very favorite females we sold last fall was a daughter of 0177, Coleman Donna 4227, who went to Ingram Angus in TN for \$32,000. "4227" was the lead off female in Ingram Angus's sale this spring and sold for \$75,000 for one-half interest. Ingram Angus also offered a flush out of Coleman Donna 4227 who sold for \$20,000 to Boyd Cattle in KY. "0177" has a perfect udder with an extremely long, big level hip; she is thick topped and very wedgy. 0177 has done a wonderful job on her calves here and one of my very favorite three-year-old females is a sister to "4227." Pay attention here, this donor is one of my very favorite young females on the ranch and one we are building around. We put a lot more embryos in this spring out of 0177. Coleman Security was the second high-selling bull of the 2025 Coleman Spring Bull Sale where he sold for \$225,000 to Voss Angus. He is a very unique Renovation son who has tremendous three-dimension shape with added volume and in the right-sized package. These embryos sell with no guarantee.

Coleman Donna 8231 is a unique breeding piece selected by H2O Cattle through the 2023 Your Maternal Source Sale and is the kind that can change cattle and transmits as much three-dimension shape and power as any cow at Coleman Angus. She has a progeny production record of BR 5/97, WR 5/104, and YR 5/106. Moderate in size, easy fleshing, loaded with muscle, and from one of the high maternal cows in the program, Coleman Donna 0308. This unique blending of South American genetics and this elite Charlo daughter will offer a tremendous building block for any program. Her daughter was a \$16,000 feature in the 2023 fall production sale. She is a maternal sister to the \$60,000 valued Coleman Donna 9286, the \$26,000 Coleman Donna 8265, the \$27,500 Coleman Donna 0316, the \$20,000 Coleman Donna 9283, and the \$25,000 Coleman Donna 9282. Coleman Glacier 041 is currently the #1 bull for \$M in the whole breed who has daughters in production. Glacier will improve foot quality, udder quality, fertility, disposition, and structure while also being extremely sound, athletic, and possessing a great herd bull look. We feel he is the bull the industry has been looking for! His daughters here are as good as we have ever had the opportunity to work with. We have three flush sisters to Glacier here at the Ranch and every one of them is a Pathfinder: they have perfect udders, great feet and are stout with a beautiful look. Every one of these sisters has a great production record, perfect calving interval record, and probably as good of set of flush sisters as we have ever had here. We believe it all starts with the mother cow, and Glacier's Pathfinder dam is no exception. 439 is the fourth consecutive generation to make it to the donor pen. She has ratios of BR 5/93, WR 5/107, and YR 5/106. She is also the dam of Mission 1447 and Ace 989, both of which are doing a tremendous job for us. Sexed for females, 90-95% accurate. Exportable to Canada and sells with no guarantee.

Coleman Donna 069 is the \$45,000 feature of the 2026 Your Maternal Source Sale and is a powerhouse female combined with being a Pathfinder, and high \$M genetics makes this an outstanding donor female who blends the Pathfinder sire, Coleman Charlo 0256, along with the \$120,000 Coleman Donna 504, who has generated over \$600,000 in progeny sales, into a tremendous genetic package. This donor female has a progeny production record of WR 4/109, YR 4/105 with one daughter in production with an average nursing ratio of 104 and stems from a dam who records BR 5/91, WR 4/110, YR 4/111, UREA 15/101. This fabulous donor female has an elegant design and tremendous depth of body in a high-ratioing package. Coleman Rock 7200 was the \$240,000 record-selling bull in our 2022 Your Maternal Source Female Sale to Ingram Angus and Sandford Cattle. Demand for the now-deceased Rock is at an all-time high across the world right now. The cattleman's kind is a perfect way to describe Coleman Rock 7200. Rock would currently be one of the heaviest used sires here at Coleman Angus. He sires cattle with extra three-dimensional shape and added performance in the right size package. His offspring have tons of center body and explosive muscle shape in a sound-structured package. Rock is low birthweight, high growth, and ranks in the Top 1% for \$M. These embryos have been sexed for females, 90-95% accurate. These embryos are exportable to Canada. These embryos sell with no guarantee.

This fabulous donor female has an elegant design and tremendous depth of body in a high-ratioing package. Coleman Avalanche 487 has been a personal favorite from his calf crop with the potential to be a major breeding force. Avalanche has created quite a stir selling for \$250,000 one-half interest to Montana Ranch and Canadian Sires for a valuation of \$500,000 in our recent "Your Maternal Source Sale" in October. Semen on Avalanche has been in very high demand and has sold very well. Avalanche is a performance and maternal trendsetter with tremendous length, added style, and herd bull presence as well as phenomenal depth of body, spring of rib, and stands on excellent feet. We are starting to get our first calves out of Avalanche, and they are exceptional, very exciting times! Avalanche had a scrotal of 39 as a yearling bull and froze extremely high-quality semen right out of the gate. We have used Avalanche very heavily this spring, ET, AI, and also naturally. If you have not seen him in person, we would encourage you to come check him out. Avalanche is a maternal brother to the great Below Zero bull that has been used around the globe. Avalanche has been a visitor favorite here and has created a world-wide stir. Sexed for females, 90-95% accurate. Embryo sells with no guarantee.

Coleman Donna 8284 is a Pathfinder dam and the \$65,000 valued feature of the 2023 Your Maternal Source Sale. She has a progeny production record of 5/91, WR 5/107, and YR 5/106. Her mother was a featured Lot 1 female and past \$60,000 top seller, Coleman Donna 6143. A maternal sister to the dam of these embryos includes Coleman Donna 9209, the \$30,000 one-half interest for a \$60,000 valuation female. This female produced a top-selling bred heifer from the recent sale that sold for \$23,000 and went to Golden J Farms in Mississippi. Coleman Glacier 041 is currently the No. 1 bull for \$M in the whole breed who has daughters in production. Glacier will improve foot quality, udder quality, fertility, disposition, and structure while also being extremely sound, athletic, and possessing a great herd bull look. We feel he is the bull the industry has been looking for! His daughters here are as good as we have ever had the opportunity to work with. We have three flush sisters to Glacier here at the Ranch and every one of them is a Pathfinder: they have perfect udders, great feet and are stout with a beautiful look. Every one of these sisters has a great production record, perfect calving interval record, and probably as good of set of flush sisters as we have ever had here. We believe it all starts with the mother cow, and Glacier's Pathfinder dam is no exception. 439 is the fourth consecutive generation to make it to the donor pen. She has ratios of BR 5/93, WR 5/107, and YR 5/106. She is also the dam of Mission 1447 and Ace 989, both of which are doing a tremendous job for us. Sexed for females, 90-95% accurate. Exportable to Canada and sells with no guarantee.

Coleman Everleda Entense 2406, a Pathfinder donor female, is a direct daughter of Coleman Juneau 044 back to the foundation Everleda Entense in our program, BT Everleda Entense 613L. 2406 is a flat-out producer, recording a progeny production record of BR 10/95, WR 10/108, and YR 9/105 with a calving interval of 9/365. Ingram Everleda Entense 7621, a daughter, sold one-half interest at \$40,000 for an \$80,000 valuation in the 2021 Fall Production Sale at Ingram Angus in Tennessee; through that same event, she produced the top-selling bull for \$37,000 one-half interest for a \$74,000 valuation, Ingram Intensity 0300. Palermo is an outcross sire who has caught the attention of cattlemen around the world. He sold for \$175,000 one-third interest in our 2024 Spring Bull Sale for a valuation of \$525,000. He has been a visitor favorite here the past couple of years, with many telling us, "He's as good of a bull as we've seen in a long time." He truly is as impressive of a bull as you will find with Angus breed character, tremendous depth of body, perfect feet and structure with a huge, wide hip and muscle expression. Palermo sired two of the best bulls we have ever made here, Program and Authentic. His daughters may be the best part of him; they are as impressive of a set as we have ever made here out of one sire. Sexed for females, 90-95% accurate. Embryo sells with no guarantee.

Coleman Chloe 302 is one we are really excited about. Very seldom do we flush females this young but feel she has the potential to run with her mother. Chloe 302 weaned her first calf with a BR of 96, WR of 119, and YR of 119 bred back AI for her second calf. 302's first calf is a bull sired by Glacier, Coleman Explorer, who sold for \$35,000 to Bucksnot Ranch in Tennessee. Here is your opportunity to get ahead of the crowd on some of the freshest genetics we have ever offered here in our embryo auctions. Coleman Avalanche 487 has been a personal favorite from his calf crop with the potential to be a major breeding force. Avalanche has created quite a stir selling for \$250,000 one-half interest to Montana Ranch and Canadian Sires for a valuation of \$500,000 in our recent "Your Maternal Source Sale" in October. Semen on Avalanche has been in very high demand and has sold very well. Avalanche is a performance and maternal trendsetter with tremendous length, added style, and herd bull presence as well as phenomenal depth of body, spring of rib, and stands on excellent feet. We are starting to get our first calves out of Avalanche, and they are exceptional, very exciting times! Avalanche had a scrotal of 39 as a yearling bull and froze extremely high-quality semen right out of the gate. We have used Avalanche very heavily this spring, ET, AI, and also naturally. If you have not seen him in person, we would encourage you to come check him out. Avalanche is a maternal brother to the great Below Zero bull that has been used around the globe. Avalanche has been a visitor favorite here and has created a world-wide stir. Sexed for females, 90-95% accurate. Embryo sells with no guarantee.

Coleman Dixie Erica 1154 is one of my favorite young females on the ranch. She was a feature of our 2024 "Your Maternal Source" female sale and sold for \$60,000 for one-half interest to Charlie Carpenter in Texas. She has done an excellent job on her first three calves with a BR of 3/92, WR 3/111, and YR 3/107. She has bred first straw AI on her first five calves. Her dam was one of my favorite females also and had the misfortune of slipping on some ice and broke her back leg. Her grandma was also a tremendous female here, and her genetics are spread across the U.S. and Canada. 1154 is the fifth consecutive donor and traces back to our foundation Dixie Erica here at Coleman Angus. 1154 is fault free in her design, has a beautiful udder and is extremely good on her feet; she will certainly catch everyone's eye when they see her in the pasture. Coleman Revenue 5142 is the \$100,000 featured Lot 1 bull of the 2026 Coleman Spring Bull Sale and selected by Bear Mountain Angus of NE and Ingram Angus of TN. He is a low-birthweight, calving-ease son of Glacier, back to a tremendous three-year-old, Coleman Chloe 303. He has a tremendous look with added muscle shape in a perfect-structured skeleton. We are excited about this young and up-and-coming herd sire here at the ranch. Embryo sells with no guarantee.

4	3.0	69	119	.65	.65	28	126

Coleman Blackcap 188 is another great Pathfinder female from Coleman Bravo 6313 back to the foundation ZWT Blackcap 1508. She is gorgeous young female with a progeny production record of BR 3/89, WR 3/106, YR 3/109 and a \$M in the Top 1% of the breed with a calving interval of 366 on her first three head. Her phenotype is second to none with a beautiful front one third and extension, a big barrel, huge hip and three-dimensional shape. Coleman Glacier 041 is currently the #1 bull for \$M in the whole breed who has daughters in production. Glacier will improve foot quality, udder quality, fertility, disposition, and structure while also being extremely sound, athletic, and possessing a great herd bull look. We feel he is the bull the industry has been looking for! His daughters here are as good as we have ever had the opportunity to work with. We have three flush sisters to Glacier here at the Ranch and every one of them is a Pathfinder: they have perfect udders, great feet and are stout with a beautiful look. Every one of these sisters has a great production record, perfect calving interval record, and probably as good of set of flush sisters as we have ever had here. We believe it all starts with the mother cow, and Glacier's Pathfinder dam is no exception. 439 is the fourth consecutive generation to make it to the donor pen. She has ratios of BR 5/93, WR 5/107, and YR 5/106. She is also the dam of Mission 1447 and Ace 989, both of which are doing a tremendous job for us. These embryos have been sexed for females, 90-95% accurate. These embryos are exportable to Canada. These embryos sell with no guarantee.

Coleman Donna 7232 has a progeny production record of BR 4/99, WR 4/108, and YR 4/106 and U%IMF 7/101. The SAV Resource 1441 x Coleman Donna 714 mating has been one of the best matings made on the ranch. 7232 is an extremely long, big-hipped female with a beautiful udder. She continually throws a tremendous amount of performance in her progeny. We feel she has the potential to make an incredible herd bull. She is a full sister to the \$120,000 valued Coleman Donna 7231, the \$120,000 Coleman 504, and the \$70,000 valued Coleman Donna 7100. Demand for South America is at an all-time high! South America has created quite a stir: he was the \$180,000 top-selling bull as well as the people's choice and pick of the flush at the 2021 Cattlemen's Congress. We rarely go and purchase bulls to bring into our program, however, he fits our visions, beliefs, and breeding philosophies. South America is a son of a past Palermo Grand Champion Bull, Don Aparicio Serrucho 57 Maxi, one of the great female sire makers in South America. His mother was selected as the heifer calf champion at the 2018 Palermo Show, one of the world's most respected and admired shows. He is an individual with outcross genetics, tremendous shape, and extra center belly depth in a dense, eye-appealing package. Visitors here to the ranch have loved him, and he is having a major impact on our program. Exportable to Canada and sells with no guarantee.

Coleman Donna 151 is the next generation of Pathfinder females and Coleman Donna 504 daughters that have started to make a tremendous impact here at the ranch. She is a direct daughter of Coleman Bravo 6313 back to the \$120,000 Coleman Donna 504. She has a progeny production record of BR 3/82, WR 3/105, and YR 3/110. She reads with a great number profile and a \$M that ranks in Top 1% of the breed. She produced the \$36,000 Coleman Sedona 4209 as her second natural calf with her first and third retained in the herd. Coleman Program 593 is owned with Schaff Angus Valley of St. Anthony, ND, KT Ranches in Canada, and Canadian Sires and Donors in Canada. Program is the \$270,000 top-selling bull of the 2026 Coleman Angus Spring Bull Sale where he captivated cattlemen from all over the world. He is a son of the outcross sire, Palermo, back to the Pathfinder dam, Coleman Donna 787. He is as good as we have ever produced at Coleman Angus for phenotype, power, mass, structural correctness, body dimension, and has a flawless stride when in motion. We have not produced an individual that has this kind of three-dimensional shape from front to rear with as explosive of hip structure and width from behind. His Pathfinder dam has generated \$1,687,000 on 27 head in past Coleman Angus sales and a full sister was the \$150,000 valued second top-selling heifer calf of the 2025 Your Maternal Source Sale, Coleman Donna 512. Other maternal sisters include the \$400,000 valued Coleman Donna 928 and the \$150,000 valued Coleman Donna 3630. He is also a maternal brother to the \$210,000 top-selling bull of the 2024 Coleman Spring Bull Sale, Coleman Maternal Source 356. This is an exciting new herd sire that will be used heavily in our program! Sexed for females, 90-95% accurate. Embryo sells with no guarantee.
